During breakfast, client had troubles swallowing his food, although he tried to have most of it. He had his lunch around 2pm, he took a nap 40 mins after lunch. Had his dinner around 7pm. Cleaned and got him ready for bed before the end of my shift.

Caregiver worked with Kyler on fine motor skills, assisted with appropriate social behavior, helped him get/eat food, transition between activities, and redirected his behavior as needed. It has been a largely smooth day. He was more receptive to his caregiver's suggestions than normal and there wasn't really any yelling or aggressive behavior throughout the day. Kyler and his caregiver played with Legos, read, played the ukulele, sang, and played with toys walkie talkies.

I had a great talk with Anna at the start. I swept and dusted her apartment. Helped her cooking some of her favorite potato pancakes. Washed dishes. Her friend Paul is a very nice and friendly guy. Great to have him direct me around Anna's help to get familiar with the environment. She is very tired today and is in her bed.

Anna seems to be in a great mood today. She talked with her friend Paul and her other friends on the phone. I organized a part of the client's space and went out to buy a head of lettuce since it sounded like she wants lettuce. I took her clothes down to the laundry. It's just tricky to have her take a shower.

I only helped the mother today. I cleaned as usual; Bathroom, hallways, living room, bedrooms, and kitchen. I swept and put away all their groceries. I didn't make anyone anything to eat, I only boiled hard boiled eggs and then put them in the fridge for clients at their leisure. I didn't clean roberts bedroom as he is stil not speaking to me. But he was not rude and kept it as professional as he could.

Arrived to find client awake and Tirrell busy cleaning up the house for a walk through from a prospective property buyer scheduled to come at noon. We went into overdrive cleaning and putting things away.

There was considerable direction from Patricia as she supervised from her bed here in the living room.

They were very cordial and stated that the prospective buyer was very interested in keeping the same people in each apartment residence which sounded very encouraging.

After they left Patricia said that she was ready for some lunch. She settled on a bowl of clam chowder so got that heated & served along with some crackers and chocolate pudding for dessert.

Then this afternoon we watched a movie on TV together while I peeled 6 huge sweet potatoes for Tirrell to cook & make 3 sweet potato pies later today.

Also I put up a few Christmas decorations to make it a bit more festive for the coming season. It was good to hear laughter around

Was greeted by the dog when I arrived. Patricia soon roused & we spoke briefly. Got her something to drink & she was soon back to sleep. I started cleaning up in the kitchen as usual. When Tirrell came downstairs he stated he needed to go to the grocery & would be back soon. On his return we put the groceries away and then he put the sweet potato pie filling into the pie shell and popped it in the oven to bake.

Next got a meal ready and served Patricia as she was awake again which she enjoyed.

I found a pudding in the fridge for her afternoon snack along with a couple cookies.

Patricia has slept off & on all afternoon but we have enjoyed a couple episodes of Andy Baxter together.

Today, Dom was already awake doing the laundry, remaking beds, and had Thai Food I made for his brunch. Reminded him to take medication . Then we went out to Asian Market, Fred Meyer Store with his mom to buy foods for Dom's 28th birthday.

Dom turns 28th years old, today. So we spent pretty much time at home preparing stuff for his big day for him. He's a very happy day.

12/17/2020 06:38 PM PDX Sudarak, Ladda 12/17/2020

Today, Dom did the laundry, remade the beds, and had a Ham Sandwich along with Strawberry I prepared for him. I also helped with the housecleaning while waiting for him to get himself ready for the day.

In a late afternoon, He wanted to go out to visit his Food Cart so I drove him there.

We also stopped at the Kohl's Store because He wanted to buy a Pajamas, that he had been waiting for a long while . He then spent \$65.05 for two of them .

We came back home. He repeated the laundry, watched the TV, and surfed on the Internet all the rest of his evening.

12/18/2020 04:41 PM PDX Sudarak, Ladda 12/18/2020

Today, I made scrambled eggs, sausages and strawberry for his brunch. Reminded him to wash the dishes after himself; then took medication. Dom asked me to help him fold the clothes so I did. I then waited for him when I finished with my part he asked me to do so. He didn't get ready for the day until 3:30pm.

We went out for a ride along NE 82nd ST. Stopped at McDonald's for food, He spent \$13.50 for Double Cheese Meal set and chicken nuggets. We then stopped for a walk at the park on the way back home.

When we got back home. Dom checked out the laundry and took a nap. He was a bit moody but everything went ok after I took home out for a ride and got the food he liked to eat .

She cleaned out all old/spoiled food from the fridge and cleaned the containers. She did dishes, took out the trash, and helped Dan as he got around.
